His research focuses on international trade policy, market ethics, behavioral economics and more recently, climate change policy. His book *A Moderate Compromise: Economic Policy Choice in an Era of Globalization* was released by Palgrave Macmillan in fall 2010.

Bing: International Economics Theory And Policy

International economics is concerned with the effects upon economic activity from international differences in productive resources and consumer preferences and the international institutions that affect them. It seeks to explain the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and transaction. International trade studies goods-and-services flows across international boundaries from supply
