Here is how the menu looks like: Clicking above menu will open the main window of merging graphs, here is a snapshot: Here, we're merging Transaction Response Time with Running VUsers graph.

Simple Statistical Analysis | SkillsYouNeed

Knowledge graphs are large, useful, but incomplete knowledge repositories. They encode knowledge through entities and relations which define each other through the connective structure of the graph. This has inspired methods for the joint embedding of entities and relations in continuous low-dimensional vector spaces, that can be used to induce new edges in the graph, i.e., link prediction in
